Reviewer’s report

Title: Use of traditional medicine for the treatment of diabetes mellitus in Eastern Uganda: a qualitative exploration of reasons for choice

Version: 3 Date: 29 June 2012

Reviewer: Linda S. Kahn

Reviewer’s report:

Paper is much improved.

Two minor suggestions:

Define MANIFEST content analysis. What does manifest mean? Why not simply content analysis?

On page 6, minor edit: "The recording provided an accuracy that would not be OBTAINED [rather than "got"] from fieldnotes."

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests.
