Reviewer’s report

Title: Cross-sectional dietary deficiencies among a prison population in Papua New Guinea

Version: 1 Date: 8 March 2013

Reviewer: heather hartwell

Reviewer’s report:

A well written paper, however I feel that the context setting was rather light. For example what type of fruit and vegetables were supplied sporadically, what cost was allocated to food provision? A discretionary revision.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
