Reviewer's report

**Title:** Integration of HIV care into maternal health services: a crucial change required in improving quality of obstetric care in high HIV prevalence countries

**Version:** 3  **Date:** 17 April 2013

**Reviewer:** Adobea Owusu

**Reviewer’s report:**

Discretionary revisions: none

Minor essential revision: Discussion, last paragraph, last 3 lines from the bottom—...requires states to “ensure to women…” THERE MAY BE AN OMISSION IN THE TEXT QUOTED THERE ‘...TO ENSURE TO WOMEN APPROPRIATE SERVICES...’ DOES NOT SOUND GOOD GRAMMATICALLY. Authors should cross-check the original source to see if they have omitted something and insert it.

Major compulsory revisions: None

Advice on publication: no plagiarism, no known substantial duplication of previous works of these authors

English language is acceptable after making the above-indicated correction. This paper can thus be published.

**Level of interest:** An article of importance in its field
