Reviewer's report:

Please see my full comments in the attached document.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I have published on the topic of the Oportunidades social assistance program in the past and rely to a small extent on the data from that project for my own research, so a high valuation of that program benefits me in a second or third order way. Other than that, I have no competing interests.
