Reviewer's report

Title: Syphilis screening in the antenatal care: a cross-sectional study from Botswana

Version: 4 Date: 15 June 2006

Reviewer: David Mabey

Reviewer's report:

General
The authors have acted on all the suggestions I made and the paper now reads well and clearly

-------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
