Reviewer's report

Title: Using Data Envelopment Analysis to Measure the extent of Technical Efficiency of Public Health Centres in Ghana

Version: 2 Date: 13 October 2008

Reviewer: Ali Ermouznejad

Reviewer's report:

Page 11- In formula (1), denominator of the constraint, the sigma should be “i=1”, at the moment it is mistyped.

Page 12 – in formula (2), in the constraints, please use indices in your sigmas, (r=1 to s) or (i=1 to m)

Page 12 – similarly in formula (3), in the constraints, please use indices in your sigmas, (r=1 to s) or (i=1 to m)

Page 12 – Objective function, please remove “+” after Ur

Page 12 – in formula (3), second constraints, first sigma, it should sigma (UrYrj) at the moment it is mistyped

Page 12 – in formula (3), second constraints, Zj9 should be Zj0

Page 21 – table 1, second column, third row, I think it should be “3.5”

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
