The Nutrition Journal Editorial Team

I have gone through the authors reply to the reviewers comments particularly mine and the revised manuscript. I believe most of my initial comments and queries have been adequately responded to.

I have no objection in recommending the manuscript approved for publication once other reviewers are equally satisfied.

Dr Lovett Lawson

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
