Reviewer’s report

Title: Nutrition transition among adolescents of a south-Mediterranean country: dietary patterns, association with socioeconomic factors, overweight and blood pressure. A cross-sectional study in Tunisia.

Version: 5 Date: 23 March 2011

Reviewer: Hélène Delisle

Reviewer’s report:

The authors have addressed my comments and concerns. I am now satisfied with the manuscript.

I would nonetheless advise that there be some English editing as the text is at times quite difficult to understand. This is in the hands of the editor.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
