Reviewer's report

Title: Effects of Acai (Euterpe oleracea Mart.) berry preparation on metabolic parameters in a healthy overweight population: A pilot study

Version: 4 Date: 6 April 2011

Reviewer: Diane L McKay

Reviewer's report:

Manuscript is much improved over previous versions.

Minor essential revisions include eliminating the first sentence under the Statistical Analysis section (i.e., no need to describe use of Excel), and referencing the trapezoidal rule. Also, make sure Table 1 is formatted properly for this journal. Consider expressing age as +/- SD, similar to other data presented in this table. Minor grammatical errors throughout paper should also be addressed.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
