Reviewer's report

Title: Modification of stool's water content in constipated infants: management by an adapted infant formula

Version: 4 Date: 17 March 2011

Reviewer: Mark Underwood

Reviewer's report:

Major Compulsory Revisions: none

Minor Compulsory Revisions:
1. Abstract: In the background portion of the abstract, change “clinical assessment” to “parental assessment”
2. Background: Change the last sentence of this section to “The objective of this study is to analyze stool composition and parental assessment of symptoms of constipation with an ….”
3. Discussion: The last paragraph should be divided. Start the new paragraph with “In conclusion, this non-randomized ….”
4. Table 2: In the top left of the table, change “Biochemical” to “NIRA”
5. Table 3: Three spelling errors: McNemar’s test. Parental assessment (not parenteral)

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
