Reviewer's report

Title: Prevalence of thinness in children and adolescents in the Seychelles: comparison of two international growth references

Version: 2 Date: 20 May 2011

Reviewer: Maria Alice de Assis

Reviewer's report:

The authors have undertaken a significant revision of their manuscript and the new version is now very much improved. Most of the previous comments have adequately been addressed by the authors.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests
