Reviewer's report

Title: Improvements in vascular health by a low-fat diet, but not a high-fat diet, are mediated by changes in adipocyte biology

Version: 2 Date: 10 January 2011

Reviewer: David Katz

Reviewer's report:

no additional revisions other than response to page proof edits are required

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
