Reviewer's report

Title: Bioactive Properties and Clinical Safety of a Novel Milk Protein Peptide

Version: 1 Date: 23 August 2011

Reviewer: Douglas Kalman

Reviewer's report:

If the authors could add the Certificate of Analysis of the "MP" studied, that would be appreciated. If the authors could add the amino acid make up (is this a poly-peptide), they would be appreciated. No real changes needed.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I, Douglas Kalman PjD declare no conflicts of interest to report.
