Reviewer's report

Title: Validation of digital photographs as a tool in 24-h recall, for the improvement of dietary assessment among rural populations in developing countries

Version: 3 Date: 8 July 2012

Reviewer: Yue Cheng

Reviewer's report:

- Minor Essential Revisions
1. Page 2, second paragraph of abstract, for sentence ‘Although all nutrients were somewhat underestimated, Pearson’s coefficients are highly significant: >0.93 for all.’. I think it should be ‘Pearson’s coefficients are high (>0.93 for all) and statistically significant.’
2. Page 9, first paragraph, a full stop is missing.
3. Page 15, last line, I prefer ‘small differences’ rather than ‘low differences’.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
