Reviewer's report

Title: Validation of digital photographs as a tool in 24-h recall, for the improvement of dietary assessment among rural populations in developing countries

Version: 3 Date: 3 July 2012

Reviewer: DA-HONG WANG

Reviewer's report:

This is a well designed research and the methods are well described. The methodology and results presented in this study would be of interest to readers in developing countries. The authors have well answered the points raised by the reviewer in their revised manuscript.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
