Reviewer’s report

Title: The glycemic, insulinemic and plasma amino acid responses to equi-carbohydrate milk meals, a pilot-study of bovine and human milk.

Version: 1 Date: 25 June 2012

Reviewer: Cyril Kendall

Reviewer’s report:

This is an interesting and important study which assessed the glycemic, insulinemic, amino acid and incretins responses of human and bovine milk and bovine milk proteins. The study is novel, well designed and the results properly interpreted.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

No conflicts of interest to report.
