Reviewer’s report

Title: High protein intake is associated with low prevalence of frailty among old Japanese women: a multicenter cross-sectional study

Version: 1 Date: 28 October 2013

Reviewer: Nancy Woods

Reviewer’s report:

1. An excellent, well-written paper focusing on a very important topic.
2. Abstract: in methods section, presence OF three ...
3. This is unusual as I have no significant recommendations for changes.

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
