Reviewer's report

Title: Serum concentration of eicosapentaenoic acid is associated with cognitive function in patients with coronary artery disease

Version: 2 Date: 16 October 2014

Reviewer: Ann Skulas-Ray

Reviewer's report:

The authors have thoroughly addressed my comments in their revision of the manuscript. I noted only one very minor revision remaining: in Supplemental Table 2, “DHLA” should be revised to “DGLA.”

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
