Reviewer’s report

**Title:** The study of anthropometric estimates in the visceral fat of healthy individuals

**Version:** 2  
**Date:** 29 January 2014

**Reviewer:** Keun-Sang Yum

**Reviewer’s report:**

The study of anthropometric estimates in the visceral fat of healthy individuals

Reviewer: I have read the above manuscript and give hereafter my comments

1. **Title**
   - Which title is correct? : The development of estimating anthropometric visceral fat in healthy individuals or The study of anthropometric estimates in the visceral fat of healthy individuals

2. **Abstract**
   - Keywords are not pertinent to this article.

3. **Subjects and Methods**
   - When did you recruit participants? Describe period of recruitment.
   - Describe age group which adult or adolescent and both
   - Revise line 97
   - Describe who did measurement of participants
   - What criteria are divided into modeling group and validation group?

4. **Result**
   - Describe statistically significant other variables (Table 1)
   - Revise line 173-176. Table 2 shows different your description.
   - Correct spelling line 186
   - Revise line 191

5. **Discussion**
   - Revise line 222
   - Line 226 HC ?
   - Correct spelling line 273
   - Young people and small size are major limitation, so you have to recruit many other age groups.

6. **ABBREVIATIONS LIST**
The changes that I believe are required are described above.

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.
