Reviewer's report

Title: "Changes in energy expenditure associated with ingestion of high protein, high fat versus high protein, low fat meals among underweight, normal weight, and overweight females."

Version: 2 Date: 17 April 2007

Reviewer: Ailsa Goulding

Reviewer's report:

General
as before
-------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
as before
-------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
as before
-------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
-------------------------------------------------------------------

What next?: Reject as not sufficiently sound

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
