Reviewer's report

Title: Dietary patterns and quality in West-African immigrants in Madrid

Version: 3 Date: 13 January 2009

Reviewer: Helen Smiciklas-Wright

Reviewer's report:

The authors have responded to the concerns expressed by this reviewer in the review of the original manuscript. While the authors identify younger and more recent immigrants as priority targets for nutrition communication, they present enough evidence to argue for general guidance for the Bubi population.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
