Reviewer's report

Title: Maternal attitudes and child-feeding practices: relationship with the BMI of Chilean children.

Version: 2 Date: 7 July 2009

Reviewer: Meizi He

Reviewer's report:

1. Major Compulsory Revisions (which the author must respond to before a decision on publication can be reached)

The major compulsory revisions have been addressed. Although the authors addressed their limitations in the discussion section, with a flaw study design, this manuscript is still a weak one.

2. Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Have been addressed

3. Discretionary Revisions (which are recommendations for improvement but which the author can choose to ignore)

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
