Reviewer’s report

**Title:** Frequency of LCT -13910C>T single nucleotide polymorphism associated with adult-type hypolactasia/lactase persistence among Brazilians of different ethnic groups

**Version:** 2  **Date:** 19 August 2009

**Reviewer:** Monica Mottes

**Reviewer's report:**

2nd review (Aug 19th, 2009)

The authors have accepted all my observations/suggestions and modified the text accordingly.

I therefore think that the paper might be worth of publication in the modified version

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
