Reviewer’s report

Title: Evaluation of effectiveness of class-based nutrition intervention on changes in soft drink and milk consumption among young adults.

Version: 2 Date: 6 August 2009

Reviewer: Martha Archuleta

Reviewer’s report:

The authors have done a good job in responding to recommended revisions. I still suggest that a sentence be added indicating that results from other data from the food records are published elsewhere and the focus of this study is limited to beverage consumption.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
