Reviewer's report

**Title:** Both common and specialty mushrooms inhibit adhesion molecule expression and in vitro binding of monocytes to human aortic endothelial cells in a pro-inflammatory environment

**Version:** 1  **Date:** 14 May 2010

**Reviewer:** Daniel Royse

**Reviewer's report:**

In many cases, reference numbers cited in the text (especially in discussion section) do not match references listed in "References". These citation errors must be corrected before the MS can be further reviewed.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
