Reviewer’s report:

The paper is very well written and clear. Results are presented in a concise form. The Discussion of the findings is honest and balanced. I would recommended it for publication.

One minor thing: the Authors may want to add the following reference:

Childhood leukemia and road traffic: A population-based case-control study.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
