Reviewer's report

Title: Long-term Exposure to Traffic-related Air Pollution and Type 2 Diabetes Prevalence in the Netherlands

Version: 1 Date: 20 July 2011

Reviewer: Lars Rylander

Reviewer's report:

I think the topic of the study is interesting and important and I do, moreover, think the paper is very well-written. The conclusions drawn by the authors are in my opinion nuanced. The study have, of course, som limitations, but I think the authors discuss them in a systematic and skilled way.

Level of interest: An article of importance in its field
