Reviewer's report

**Title:** Polychlorinated Biphenyl Exposure, Diabetes and Endogenous Hormones: A Cross-Sectional Study in Men Previously Employed at a Capacitor Manufacturing Plant

**Version:** 3  **Date:** 16 July 2012

**Reviewer:** Carissa Rocheleau

**Reviewer's report:**

The authors have satisfactorily addressed my comments.

The authors may wish to consider dichotomizing BMI and alcoholic drinks (since there were cells with 0 observations in a 3-category format) or left as continuous instead of being ordinal categories. This is left to the authors' discretion, however.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

I have no competing interests.
