Reviewer’s report

Title: Gene-environment Interaction Effects on Lung Function - A Genome-Wide Association Study within the Framingham Heart Study

Version: 2 Date: 17 November 2013

Reviewer: Jemma Wilk

Reviewer’s report:

The authors have responded sufficiently to my earlier reviews. I think further details on the network analysis (#4) would be useful, but are not compulsory.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I am employed by Pfizer.
