Reviewer's report

Title: Residential exposure to motor vehicle emissions and the risk of wheezing among 7-8 year-old schoolchildren: a city-wide cross-sectional study in Nicosia, Cyprus

Version: 2 Date: 8 June 2010

Reviewer: Bert Brunekreef

Reviewer's report:

I have responded on May 26, and then again on June 3 by e-mail, saying I was happy with the revision and responses and had no further comments. But apparently nobody in the editorial office reads responses to e-mails??

cheers,

Bert

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
