Reviewer's report

Title: Thickening of the pulmonary artery wall in acute intramural haematoma of the ascending aorta.

Version: 1 Date: 15 December 2006

Reviewer: Francesca Frassi

Reviewer's report:

General
This is a very interesting and well written manuscript. The images are self-explanatory.

-----------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
The manuscript would be very enriched with the colorDoppler of the aorta and pulmonary artery, if available.

-----------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable
