Reviewer's report

**Title:** Cardiac incoordination induced by left bundle branch block: its relation with left ventricular systolic function in patients with and without cardiomyopathy

**Version:** 1  **Date:** 10 June 2008

**Reviewer:** Michele Masini

**Reviewer's report:**

An interesting, well executed and clearly presented study showing myocardial velocity imaging evidence of cardiac incoordination in left bundle branch block patients with and without cardiomyopathy.

Minor comments:
Correct multiple spelling mistakes and typos (in abstract: line 8, analyzing; line 10, echocardiography; line 12: comparison; page 9: it’s is its; etc etc).

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
