Reviewer's report

Title: Endothelial Function and Urine Albumin Levels Among Asymptomatic Mexican-Americans and Non-Hispanic Whites

Version: 1 Date: 28 July 2008

Reviewer: Michele Masini

Reviewer's report:

This is an interesting study showing - as the main finding - the inverse relation between urinary albumin and FMD.

Minor comments:
Add as a study limitation the lack of an automated system for FMD analysis.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
