Reviewer's report

**Title:** Association between health worker motivation and healthcare quality efforts in Ghana

**Version:** 2  **Date:** 14 June 2013

**Reviewer:** Stuart Whittaker

**Reviewer's report:**

1. Major Revision
The article has been considerably improved, however, the aim of the project is only stated in the abstract, which is: To identify interventions at health worker level that contribute to the quality improvement and attainment of the health related MDGs by 2015.
This aim has not been achieved.

Neither the results nor the conclusion specify the attainment of this goal.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**

No to all the questions above.
