Reviewer's report

Title: A framework for outcome-level evaluation of in-service training of health care workers

Version: 1 Date: 23 August 2012

Reviewer: Hugo Mercer

Reviewer's report:

The article provides a too general explanation on how the framework was developed, but it lacks of information about the concrete implementation of the proposed framework.

In its present conditions it doesn’t provide to the users convincing reasons why to use the framework.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
