Reviewer's report

Title: Preservice Laboratory Education Strengthening Enhances Sustainable Laboratory Workforce

Version: 1 Date: 24 June 2013

Reviewer: Bernadette Rodak

Reviewer's report:

Overall the manuscript was very well written, informative and easy to read. I did find that it was rather wordy with some repetition and may benefit from editing for economy of words. Figures and tables were well formatted.

Major: none
Minor: none
Discretionary:

1. Provide a reference website to Millennium Development Goals. In Africa this is likely not needed - but for the USA, it may be..
2. On page 6, the word technician is used, while technologist is used in all other places. Was this usage intentional to differentiate between the technician (A.S.) and the technologist (B.Sc.) - or should they both be technologist?

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
