Reviewer's report

Title: Why some physicians in Portuguese-speaking African countries work exclusively for the private sector? Findings from a mixed-methods study

Version: 2 Date: 26 June 2014

Reviewer: Terence Cheng

Reviewer's report:

Discretionary revisions:

Figure 1: Doctor categories are not labelled. A number of outliers are not realistic (max number of hours per week is 24*7=168). I would suggest excluding these observations from Figure 1, which would also make the figure more readable.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
