Reviewer's report

Title: Useful of a Thematic Network, on the Primary Healthcare: A controlled interventional study in a rural area.

Version: 1 Date: 2 July 2005

Reviewer: Carlos G Musso

Reviewer's report:

General

I think that this article is a very interesting and original one, since it shows the importance of introducing Internet technology in order to improve rural medicine achievements.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

There are spelling mistakes which should be corrected:
In Background, Page 4, row 3: it should say "usefulness" instead of "usefulnes"
In Methods, Page 4, row 2: it should say "through" instead of "trought"
In Discussion, Page 10, paragraph 3, row 1: It should say "professional" instead of "professianl"

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
