Reviewer’s report

Title: Role of pharmacists in developing countries: current scenario in Pakistan.

Version: 1 Date: 21 March 2009

Reviewer: mahmood ahmad

Reviewer’s report:

It is a socioeconomic study. It needs to be correlated with the role of pharmacist as given in title. Moreover grammatical mistakes are common. Reference style should be according to the style of journal.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
