Reviewer’s report

Title: The Current Shortage and Future Surplus of Doctors: A Simulation modelling of the Future Growth of the Japanese Medical Workforce

Version: 1 Date: 3 August 2010

Reviewer: Hitoshi Okada

Reviewer’s report:

Minor Essential Revisions

The authors are requested to show the detail of MODELING clearly. It is necessary for the readers to understand the methodology, to make clear what is the contribution, and to make sure how the hypothesis is proved.

The stories that authors set in this paper itself is acceptable.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.
