Reviewer’s report:

I am sorry about this, but provided my feedback on the 23rd March, I don’t what went wrong. My response was more or less as follow:

As indicated in my first review, this is a very useful article which merit publication. The authors have now responded satisfactorily to the main major concern, i.e. performance at the working place; I would therefore recommend its publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
