Reviewer’s report

Title: The Global Stock of Research Evidence Relevant to Health Systems Policymaking

Version: 2 Date: 9 August 2013

Reviewer: Duncan Chambers

Reviewer’s report:

The authors’ responses to my comments appear reasonable and I am happy to recommend the revised manuscript for publication. I still feel there is a degree of repetition in places but will leave that to be sorted out between the authors and the journal.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I am involved in the production and development of DARE, which contributes content to Health Systems Evidence.
