Version: 3 Date: 5 June 2014

Reviewer: Fikri Abu-Zidan

Reviewer’s report:

The authors should search both databases. The argument given is not convincing and have to be shown in the manuscript and not in the cover letter. If these changes were not genuinely addressed then I advice against publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
