Reviewer’s report

Title: How can we establish more successful knowledge networks in developing countries? Lessons learnt from knowledge networks in Iran

Version: 2 Date: 16 May 2014

Reviewer: laurence prusak

Reviewer’s report:

Discretionary Revisions:
I think it would be very helpful to the readers of your journal for the authors to discuss and define what they mean by the word "knowledge" as used here and especially as contrasted to "information" and "data."... this would enhance the findings, encourage others to develop these valuable networks, and better differentiate knowledge networks from other types of more generalized networks.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
