Reviewer's report

Title: Educating the Power: HIV Policy and Parliamentarians of Pakistan

Version: 1 Date: 15 December 2008

Reviewer number: 1

Reviewer's report:

In this manuscript the authors have addressed an important issue that could play a critical role in preventing the generalization of the HIV epidemic in Pakistan and other countries in South-east Asia. By engaging, educating and unifying the parliamentarians in the fight against HIV/AIDS, Pakistan can formulate and implement a concerted and effective public health policy to prevent the spread of HIV.

Specific comments are as follows:

1. There are a few typographical errors and/or inconsistencies in the manuscript (e.g. case used for “parliamentarians” and “globe”).

2. Some references would need an update (e.g. UNAIDS estimates)

Level of interest: An article of importance in its field

Quality of written English: Acceptable
