Reviewer's report

Title: Potential benefits of using a toolkit developed to aid in the adaptation of HTA reports: A case study considering positron emission tomography (PET) and Hodgkin's Disease

Version: 3 Date: 17 March 2010

Reviewer: Finn Boerlum Kristensen

Reviewer's report:

Minor Essential revisions: The is need of some text editing of the list of references, several are inadequate or with errors.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests. I have co-authored articles with some of the authors on the EUnetHTA project (the project in which the toolkit was developed). The toolkit is in the public domain.
