Reviewer’s report

Title: Measuring the Burden of Arboviral Diseases: The Spectrum of Morbidity and Mortality of Four Widely Prevalent Infections

Version: 2 Date: 12 December 2010

Reviewer: Mohsen Naghavi

Reviewer’s report:

Dear Jolayne,

I read again this revised manuscript and the authors letter that describing some changes and some answer to the reviewer’s points. Finally I think authors point about working with sparse data about these infections diseases is correct and there is no other ways to improve the input data and get more precise results. Then I do not have other major or minor points about publishing of this paper in PHM.

Best regards

Mohsen Naghavi
