Version: 3 Date: 16 December 2011

Reviewer’s report:

Minor essential revisions

In figure 2 the 33-mer shown in yellow is in fact a 32-mer. One more residue needs to be coloured in.

In the legend of Figure 3 "of" should be deleted in the 8th line: also there is an error in the last sentence - should read ....multiple sclerosis and IBS" - "and ADHA" should be deleted.

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
