Title: Methodological quality of English language genetic guidelines on hereditary breast cancer screening and management: an evaluation using the AGREE instrument

Version: 2 Date: 20 August 2012

Reviewer: Philippe Autier

Reviewer's report:

Authors took care of some comments. I understand that they could not address all of them. I appreciated that they added some guidelines in English language from non US countries.

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
