Reviewer’s report

Title: Advances in bladder cancer imaging

Version: 2 Date: 28 February 2013

Reviewer: paolo puppo

Reviewer’s report:

The manuscript have been properly corrected. I only suggest to introduce a flow chart describing which procedure to perform and when including the level of evidence in support of each passage. It would improve greatly the impact of the paper to the readers.

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
